

The Adobe Chapter of Questers in Monterey was led by project chairman Shirley Eljenholm in 1995. They restored and redecorated the parlor, one bedroom, and bathroom of the Point Pinos Lighthouse to the period of Emily Fish. The items of clothing, dated during the time of Emily Fish, are displayed in her bedroom and were found by Shirley in her aunt's attic. She helped restore the stove on display that was found in an antique store. Her contributions were numerous.

Visiting the lighthouse in January was her granddaughter, Taylor Eljenholm Howsley, and her husband Tyler from San Diego. She was glad to recall the work her grandmother did in the restoration of the lighthouse.

The work of the Questers was an outstanding contribution to the history, education, and enjoyment of all our visitors.

*Honoring*

***Shirley Eljenholm***

*in recognition  
of her outstanding dedication  
in the restoration of  
Point Pinos Lighthouse*

***Adobe Chapter Questers***
